Editor's Letter

The Skinny Wire is your source for the latest telecom products, solutions, and trends. Walker and Associates makes it a priority to stay abreast of the latest products and trends in the telecommunications industry, in order to provide customers with the best competitive solutions. In this issue of the Skinny Wire, you will find useful information pertaining to multiple technologies including IPTV, IP Video, VoIP, Carrier Ethernet, Optical Transport, Timing solutions, and connectivity products.

Also, many of the top manufacturer's in the telecom industry have written editorials relating to the hottest trends of 2007-2008, and you can find them all in this issue of the Skinny Wire.

If you're interested in learning more about our community involvement, check out the Walker news section for more details. There you will discover how Walker and Associates supports a local high school, and how a few of our associates have accomplished great milestones.

Please enjoy this issue of the Skinny Wire. Feel free to contact me with any questions or feedback relating to this Walker publication. Expect our next issue in early 2008.
